

Adamic-Glance Distinguished Early Career Award 2026

The ICWSM Adamic-Glance Distinguished Early Career Award recognizes annually a person who has distinguished themselves through creativity and rigor in identifying and addressing important computational social science research topics of societal impact.

We are pleased to present the 2026 ICWSM Adamic-Glance Award to:

Dr. Savvas Zannettou

for pioneering methods to measure evolving online harms, auditing opaque AI-driven platform algorithms in the wild, and developing ethical, post-API data access approaches and datasets to sustain independent research.
